We're Hiring!

Data Annotator (Medical Imaging)
Flexible, Hourly-Rate Contract (CHF 20 per hour)

About aiE:
At aiEndoscopic, we simplify endoscopy by combining it with Artificial Intelligence. Our vision is to innovate for a safer global healthcare system, where patient outcomes are improved by supporting the skills and procedures of healthcare professionals.

The Role:
We are seeking data annotator(s) to support our AI model development. The work schedule is flexible and hybrid work options are available (after onboarding).

What you'll do (responsibilities):
- Data annotation, labelling and quality review.
- Detect and document patterns of annotation mistakes.
- Review and feedback on annotation guidelines.
- Gain in-depth knowledge of image annotation software tools.
- Provide feedback to further develop the annotation of datasets.

What we're looking for (requirements):
- Ability to commit to 2-4 days per week and plan schedule at least 2 weeks ahead.
- Basic computer literacy.
- Ability to work on repetitive tasks efficiently and effectively with minimal errors.
- High-motivation with the desire to learn.
- Interest in artificial intelligence and machine learning.
- Comfortable looking at videos of medical procedures.

What we offer:
- Flexible, hourly rate contract of CHF 20/h
- Very nice coworking office space in the heart of Zurich (Hardbrücke).
  Hybrid work model possible (after onboarding is complete, but you are always welcome in our office to share a coffee or eat lunch with the team).

How to apply
Send your CV + (minimal) cover letter to career@aiendoscopic.com with the subject "Data Annotator"
